May 14, 2021

Good Afternoon preschool (soon-to-be kindergarten) families ☺

- We can't believe we only have three more weeks of school!!! We are very busy in preschool finishing up the alphabet. We are finishing the letter "Xx" this week and will be moving on to the letter "Yy" next week.

- Preschool loved making their volcanos and "setting them" off in school.

- We were very brave learning about worms through exploration. We think we have some newly found worm lovers.

- Currently The favorite toy in the classroom is our tool bench. Hide your hammers!! Our boys and girls love to bang!

- We have finished up our unit on plants. We hope your mother's day flowers are doing well. They are nasturtiums and should have orange and yellow flowers.

- We are learning about butterflies and their life cycle. We are currently watching 10 baby caterpillars make their magical metamorphosis into butterflies.

- Next Friday, May 21, 2021, we will have a special day called "support your team/activity you love". Watch for more information coming home.

- Reminder, Wednesday, June 2, 2021, we will be having our field day in the gym. All you need to do is send your child to school wearing sneakers and comfy clothes to run around in. The boys and girls do not need to wear their uniforms.

- Reminder, Friday, June 4, at 1:00 will be our preschool graduation at St. Mary's church. Your invitation is going home today. Boys and girls can dress in anything they want. RSVP the number of people coming to Mrs. Hilli or Mrs. Lomme or in a quick note in the red folder.

- Wanted: If anyone has access to a couple of tadpoles, we would love to watch them change into frogs in our classroom.

Have a great weekend!

Mrs. Hilli & Mrs. Lomme
