

5/11/22

Good afternoon Pre-K families,

We would like to say thank you to everyone for all the wonderful teacher appreciation gifts and surprises. We are so blessed to have so many fabulous people at our school. Thank you for entrusting us with your children every day.

I would like to share some personal news that is very exciting. I was out of school on Tuesday so I could attend the graduation ceremonies of my son and daughter from Northeastern University. My son's ceremony was at 9:00 in the morning from the NU College of Engineering where he got his degree in Electrical Engineering with a minor in math and journalism. My daughter's graduation was at 6:00 p.m. from the NU College of Science where she graduated Suma Cum Laude with dual majors in Criminal Justice and Psychology. What happened to weekend graduations? I tell you this (because I'm a proud parent) but also because my children came to Trinity from grade Pre-K to 8<sup>th</sup>. They received an amazing education and were set up to be successful in whatever they wanted to be. They were taught great study habits, and the ability to be independent while being respectful, and to rely on God to help them through the good and the tough times. I also tell you this because although everyone is different.... Feel confident in your child's education, good things come out of a catholic education at Trinity Catholic Academy.

There was a note that went home for field day from the school. Although we don't go to Camp Foskett in Charlton (It can be a very long, hot or cold, day for our Pre-K boys and girls) we have a fun-filled field day of our own in the gym with freeze-pops and medals. If the weather is nice, we will have a picnic lunch outside. The color of our t-shirts will be a teal/blue. I have attached the t-shirt order form. If you do not want to order one, please let us know.

We have been very busy in Pre-K we are still working on the letter Ww and the sound it makes. We had a lot of fun making our volcanos "erupt" last week. We did a STREAM activity where we had to make a parachute to save a small bunny get safely to the ground. The boys and girls had a lot of fun building, testing and using their parachutes. We will be finishing up our unit on insects.

On May 2, the Pre-K delivered May Day gifts to all the classes as a surprise. They did a great job being quiet when we were delivering the packages so no one saw us.

Some of us enjoyed tacos at our Cinco De Mayo celebration. Everyone enjoyed doing the Mexican hat dance.

We are eagerly watching our caterpillars in anticipation of their great transformation. They have not made their cocoons yet. I am sure you will hear updates as they happen 😊

Next week we will be starting on the letter Xx, and starting our unit on oceans and ocean animals.

Peace,

Mrs. Hilli & Mrs. Lomme
