

Second Grade Summer Math

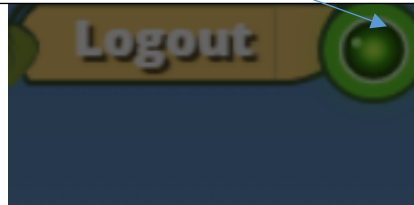

Dear Parent or Guardian of Second Graders!

Great news! Your child will be using Reflex Math, the world's most effective (and fun!) program for helping students master their basic addition, subtraction, multiplication, and division facts for summer math. Your child's goal for the summer is to completely fill in the "Family Pyramid" chart by the first day of school. This chart will fill in automatically as your child learns the facts. It is very important that your child work on this website at least 3 to 4 times a week during the summer. It is important that each time your child works on the website that they should work until they get a solid green dot for that session. It takes approximately 15-20 minutes to get the complete green dot. (see diagram below.)

The dot starts out as solid black

The solid green dot means that your child has spent the right amount of time for that session.

If your child waits for the end of the summer to work on Reflex math, they will not be able to complete the goal of filling in the "Family Pyramid". I will be checking Reflex during the summer to see how your child is progressing towards their goal of filling the "Family Pyramid" and how much time your child is spending on the site during the summer!

Reflex continually monitors student progress and adapts to each student's needs, so it is very important that **only your child works on his/her account**. Your child's login information was enclosed with their report card. **If you need help, please e-mail me at deborah.curran@tca11.com**

 Reflex **Reflex Parent Reporting Account**
Student: - Grade 2

Dear Parent or Guardian,

Great news! Your child is using ExploreLearning Reflex, the world's most effective (and fun!) program for helping students master their basic addition, subtraction, multiplication, and division facts. This letter contains student login information, as well as instructions for setting up your own Reflex Parent Reporting Account that will allow you to monitor and support your child's journey to math fact fluency.

Parent Reporting Account Sign-Up

1. Go to reflexmath.com/parents
2. Follow the onscreen instructions to get free access.
3. Once you are logged in, follow the instructions to add your child.*

*To add your child, you will need information from your child's Student Login Card

To access your reporting account in the future, visit reflexmath.com or go-el.com, then log in with your username and password.
