

Your child's goal for the summer is to work on this website at least 3 to 4 times a week during the summer. It is also important that they work on the website until they get a solid green dot for that session. It takes approximately 15-20 minutes to get the complete green dot. (see diagram below.)

The dot starts out as solid black

The solid green dot means that your child has spent the right amount of time for that session.

If your child waits for the end of the summer to work on Reflex math they will start to lose facts. It is imperative that your child works on this website 3 to 4 times a week as it will be the first Math grade of the new school year. I will be checking Reflex during the summer to see how they are progressing towards their goal of achieving the green dot 3 to 4 times a week. Reflex continually monitors student progress and adapts to each student's needs, so it is very important that **only your child works on their account. If you need help please e-mail at angiolina.sanelli@tca11.com**
