

Fifth Grade Summer Math

For your summer math work, you will need to log in to Reflex 3 times a week and fill the green circle each time. To log in under my class, you will need to use the username: TCAgrade5. You will then need to select 5th grade and find your name. Your password is the same as the one you used this year in 4th grade. If you are a new student, a password will be emailed to you.

Have a great summer!

Mrs. Aronson
